Biochar and Climate Specialist 80-100 %

Help us cool the planet and **set carbon standards** as part of our team. Carbon Standards International AG is a **standard setter and provider of registry services** that offers a strong foundation for meaningful climate action. We are headquartered in Switzerland and work internationally. As part of the EASY-CERT group, operating in 46 countries, we're embedded in a strong network of companies. As we continue to expand, we're looking for an experienced, visionary **Biochar and Climate Specialist**.

Learn more at carbon-standards.com.

Location & working model

On-site at EASY-CERT group offices in Austria or Switzerland, with flexibility for partial remote work.

Key Responsibilities:

- **Drive customer acquisition** through introductory calls and by hosting information sessions/webinars on our standards, including Biochar Quality (ex. EBC) and C-Sink Standards.
- **Support new projects** from early onboarding through registration, validation, and verification processes within the framework of Carbon Standards International.
- Serve as a key point of contact for customers and partners, providing **technical and expert guidance regarding biochar production and C-Sink registration**.
- Contribute to the **development of concepts, operational processes, and system solutions**.
- Stay up to date with the latest **scientific and policy developments related to biochar and carbon dioxide removal (CDR)**.
- **Represent the company in technical and expert working groups** on biochar-related topics.

Your profile

- **Bachelor's degree** in environmental or climate-related fields
- **Specialization in pyrolysis technologies and biochar production.**
- **Excellent communication skills and/ or work experience** in direct customer interaction. **And sales flair is of great value** to successfully pick up customers
- **The ability to understand regulatory and standard requirements** and translate them into practical operational processes.
- Ability to thrive in a dynamic environment.
- **Fluency in English and German** (additional languages a plus).

What We Offer

- An innovative and meaningful role in the evolving Carbon Dioxide Removal (CDR) sector.
- An **innovative, motivated, multidisciplinary and supportive team.**
- **Flexible working hours** and the possibility of **remote work.**
- Modern infrastructure.
- **Work with purpose**—create positive climate impact together.
- Opportunities for personal and professional growth.
- **Competitive salary.**
