

Carbon Standards International AG develops standards, concepts and system solutions for Carbon Removals, certification of high-quality Biochar products and the calculation of Climate Balances on farms. Carbon Standards International is part of the EASY-CERT group. For more information, please visit www.carbon-standards.com.

To support our team we are looking for an immediate or by appointment

Expert Environment/Climate

80-100 %

Your tasks

- Support of our Carbon Removal standards, as well as their further development in terms of content
- Technical and professional support of our licensees
- Implementation of projects with licensees and partners
- Collaboration in the development of new standards, concepts and system solutions

Your profile

- A degree and experience in the field of environment/climate
- Specialization in the field of Carbon Removal or Carbon Farming
- Independent way of working
- Communication skills and assertiveness
- High social competence
- Willingness to travel nationally and internationally
- Languages: English (native or very good knowledge), any other language an advantage

Our offer

- An innovative, responsible job
- A dedicated team
- A modern IT environment
- Attractive employment conditions

Your workplace is flexible. You will work in an EASY-CERT group AG office, ideally in Frick/Switzerland or Enzersfeld/Austria (www.easy-cert-group.com) or partly also in a home office.

If you are interested in this versatile and interesting task, please send your **complete application documents** by mail to: info@carbon-standards.com. If you have any further questions, please do not hesitate to contact Matthias Matzenberger: matthias.matzenberger@carbon-standards.com.
